 =Outstanding

Tough Competition!

Girls, I know that we were a little tired going into this meet. We just need to believe in the entire team and also know that we will feel great down the line a few weeks. We're training very hard, and this will pay off, so be patient and stay with me. The big goals are CIF/State and we are in good position for this. Compare mile times with last week. This is quite a difference (6:09 is where we will need to be). It will come easy later in the season.
