Solid Racing, Just Too Hot for PR's

Today was a really good day for us. The stats don't necessarily show it, but I was very excited about the team commitment to race. There was a lot of excitement out there, and only the heat slowed us down a little bit. Stay focused; we will peak at just the right time and run a brilliant race at the league championship race. Next week: St. Augustine and OLP. Prepare to feel great as we begin to rest more over the next two weeks. How close together were we today? Check the 1 and 2 mile marks above.
